5

9. (Amended) A projector in accordance with claim 8, wherein the ceramic is composed of any material selected from the group consisting of Al₂O₃, 2MgO·SiO₂, MgO·SiO₂, ZrO₂·SiO₂, TiO₂, SiC, Si₃N₄, ZrO₂, and cermet.

Please add the following new claims:

3

- 14. (New) A light source device in accordance with claim 3, wherein the material is Al₂O₃.
- 15. (New) A light source device in accordance with claim 3, wherein the material is 2MgO·SiO₂.
- 16. (New) A light source device in accordance with claim 3, wherein the material is MgO·SiO₂.
- 17. (New) A light source device in accordance with claim 3, wherein the material is $ZrO_2 \cdot SiO_2$.
- 18. (New) A light source device in accordance with claim 3, wherein the material is TiO₂.
- 19. (New) A light source device in accordance with claim 3, wherein the material is SiC.
- 20. (New) A light source device in accordance with claim 3, wherein the material is Si₃N₄.
- 21. (New) A light source device in accordance with claim 3, wherein the material is ZrO₂.
- 22. (New) A light source device in accordance with claim 3, wherein the material is cermet.
 - 23. (New) A projector in accordance with claim 9, wherein the material is Al₂O₃.

3,7

24. (New) A projector in accordance with claim 9, wherein the material is 2MgO·SiO₂.

- 25. (New) A projector in accordance with claim 9, wherein the material is MgO·SiO₂.
- 26. (New) A projector in accordance with claim 9, wherein the material is ZrO₂·SiO₂.
 - 27. (New) A projector in accordance with claim 9, wherein the material is TiO₂.
 - 28. (New) A projector in accordance with claim 9, wherein the material is SiC.
 - 29. (New) A projector in accordance with claim 9, wherein the material is Si₃N₄.
 - 30. (New) A projector in accordance with claim 9, wherein the material is ZrO₂.
 - 31. (New) A projector in accordance with claim 9, wherein the material is cermet.

DISCUSSION OF THE AMENDMENT

Claims 3 and 9 have each been amended by deleting "compounds", since it is understood that the term "TiO₂" is inclusive of all compounds having that formula which meet the recited thermal conductivity limitation.

New Claims 14-31 have been added, and are supported by Claims 3 and 9.

No new matter has been added by the above amendment. Claims 1-31 are now pending in the application.

<u>REMARKS</u>

As recited in Claim 1, the claimed invention is a light source device, comprising a light source lamp; and a reflector that reflects light emitted from the light source lamp,
